Great Hopkins County Fair, August 1st, 2d, 3rd, 4th and 5th.

GRANDER, GREATER, MORE AND BETTER ATTRACTIONS THAN EVER BEFORE. DON'T MISS IT.

WHO'S GOT THE BUTTON?

Chicago Employees Say Their Teamsters Must Not Wear Union Badge.

NO MORE STREET BLOCKADES—STRIKE OFF AND MEN ASKING REINSTATEMENT.

Chicago, July 21.—The union button and the street blockade against non-union drivers, popularly looked upon as cardinal principles of the teamsters' union, will no more be tolerated by any firm that has been affected by the strike just ended, if resolutions adopted by the employers at a meeting today are carried out. Representatives of every branch of industry, affected by the strike, pledged themselves to stand for the "open shop" and to enforce the rules put into effect by the Employers' Association members several weeks ago.

Teamster strikers, who last night gave up their long struggle against the employers, broke ranks today in a stampede for work. The barns of the strike-affected firms were besieged by men who have been idle for months, and whose places have been filled by non-union men.

The employers in many cases announced that there were vacancies for only a few. Of more than 4,000 men who quit work not more than 1,400 or 1,500 will be reinstated during the next few days.

Nearly every one of the strikers at the department stores filed applications for reinstatement. In many cases the men were put to work immediately. At one store a number of men who obeyed the order to strike stood in line today and signed applications forfeiting their right to wear buttons of their union except.

The express companies, who fought their battle virtually alone and apart from the others, are not to take back any of their former employees.

Police protection will not be withdrawn for a few days at least, as clashes between non-union men and unionists are feared when the latter return to work.

ENORMOUS COST OF MINE WORKERS UNION STRIKE.

A million and a half dollars spent in vain efforts in Alabama and Tennessee.

New York, July 20.—Testimony has been given at a hearing before Commissioner of Licenses Keating, in this city, to the effect that the United Mine Workers of America had spent more than \$1,500,000 in an effort to win a strike which began in the bituminous coal mines of Alabama and Tennessee a year ago. The statements were made by General Labor Agent Hugh DeWitt, of the Tennessee Coal Iron and Railroad Company.

DeWitt asserted that the union contributed an average of \$1,000 for the maintenance of the officers of local unions in those states, and that, in addition to \$365,000 spent by the organization, the union had expended \$26,000 within the last four months for railroad tickets and strike breakers to remove their homes.

STATE OF KENTUCKY MAY BUY RAILROAD BRIDGE.

Old Illinois Central Bridge Over Cumberland River at Gilbertsville.

The project of the State of Kentucky buying the old Tennessee river bridge of the Illinois Central, near Gilbertsville, Ky., for a foot and wagon bridge, is being discussed by a number of persons interested, but nothing has been done thus far, except the exchange of a few letters with State officials bearing on the subject, says the Paducah News Democrat.

It has been suggested by many who are thoroughly conversant with the subject, that this bridge could be bought by the State for perhaps \$15,000 or \$20,000—a tenth of what it would cost to build any kind of a new bridge—the tracks could be removed and the structure floated and thus converted into as strong a foot and wagon bridge as any in the State.

It is probable, however, that the next Legislature in January may be asked to appropriate money enough to buy the bridge for the State.

JOHN PEYTON HURT.

Chain Tackle Broke and Fell on Him While Working at St. Charles.

John D. Peyton, of the St. Bernard construction force, now engaged in erection of tipples, etc., at the new St. Charles opening was knocked out temporarily Saturday while operating a chain tackle at that place. The tackle broke while he was in the act of hoisting a load and the tackle and chain fell, striking him on the shoulders and head and knocking him into an unconscious state. He received a cut on the head and was otherwise bruised but was revived at once and his wound was dressed by W. A. Toombs, foreman of the crew. Mr. Peyton remained at the works until afternoon, when the entire crew came to Earlings, coming with the rest.

The accident happened about 10:30 in the morning. He received medical attention at the St. Bernard hospital upon arrival here. His injury will keep him off duty some days.

An Evening Dance at the Park.

The young men of the town gave a dance at Lakeside Park last night to the ladies of the town and their charming visitors among which are Mrs. Guthrie, Misses Eastwood, Childer, Haden and Warner. A delightful evening was spent at this lovely resort.

Not Drowned.

Albert Henderson was drowned as was reported in the press dispatches. His father writes a letter to THE BEE making a correction. Following is the content of the letter:

Albert Henderson, a soldier, at Fort D. A. Russell, Wyo., that was reported drowned on the 3d is not true. He and one other boy escaped by holding to the boat, while the other three attempted to swim to the shore and were drowned. His father, Albert Henderson, Sr., received a letter from him on the 10th telling of the narrow escape. Two fishermen saw them in distress and took them to the shore. ALBERT HENDERSON.

MINERS OVERCOME

Twenty Succumbed to Gas at Deanfield, Rescued by Fellow Workmen.

SECOND MISFORTUNE IN ONE WEEK.

Owensboro, Ky., July 20.—Twenty miners were overcome by gas in a mine of the Deanfield Coal Company, near Deanfield, this morning. The gas accumulated imperceptibly and most of the miners in that part of the mine where the accumulation was heaviest, were unable to walk when the condition of the mine was discovered by those at work in other parts. They were carried from the shaft by those who had escaped the effects of the gas. Several of the men are in a critical condition. Cal Simms was the most seriously injured and there is little hope of his recovery.

This is the second misfortune to happen to the Deanfield Coal Co., in five days. On the Sunday morning previous to the gas accident the store of the company was burned with a loss of \$9,000, insurance \$6,500.

Browder's Chapel Dedicated.

Browder's Chapel, a Southern

Methodist church a few miles

from this place, was dedicated

Sunday. A large crowd was in

attendance. Rev. J. B. Adams,

of Madisonville, delivered

the dedication sermon, which was a

very effective one. There was a

bountiful dinner spread on the

ground for all that were present.

This is one of the largest chur-

ches and congregations in Hopkins

county and is located in a splen-

did neighborhood. The pastor

of this church is W. C. Lucy, of

Hanson.

To Miss Haden.

Last Thursday evening Mrs.

Ed. Brooks entertained in com-

pliments of Miss Bernice Haden,

the attractive guest of Miss Sue

Ford. Delicious ices, cake and

fruits were served and the young

folks had a merry time till the

wee small hours.

MISS JOHN COOK

Lived as a Man a Number of Years—Shot at Heels Saturday by Frank Cook

UNDER PECCULAR CIRCUMSTANCES.

Miss Johnnie Cook, of Heels, aged 30, who has been masquerading as a man until a few years ago, was shot by Frank Cook Saturday between 1 and 2 o'clock.

The wound was at first thought to be fatal and a physician was hastily summoned.

Thinking she had only a short

time to live she asked that a warrant of arrest be issued for Frank Cook who had been living with her and who was to have married her on Tuesday, July 25th.

The affidavit is as follows:

"This evening between 1 and 2 o'clock Frank Cook's brother, Charlie, came here to my house to see Frank. They had a talk and after Charlie left Frank seemed to think I was a woman and told him I was not. After a little a man began talking over some other matters and he seemed to get mad and we had a struggle. He made an attempt to get his pistol out of his pocket and I grabbed hold of his hand and held it in my pocket. He dragged me into the kitchen and while we were still struggling I saw a jug and was reaching for it to defend myself. When he saw me bend over for the jug he shot, the ball going in just below the heart. As soon as he fired I screamed, 'Frank, you have killed me.' I then tried to get back in the other room, but fell in the doorway. He came back and picked me up and carried me to a cot. I had my pocketbook in my bosom and he asked me for it. I said, 'Yes, you can have it.' He then went to his trunk, took out his best suit of clothes, leaned over and kissed me and said, 'Good bye, sweetheart.'

He then went to his trunk, took out his best suit of clothes, leaned over and kissed me and said, 'Good bye, sweetheart.'

In Session at Crab Orchard Springs—
Good Time For All.—
BIG CROWD ON HAND.

Crab Orchard Springs, Ky., July 26.—Editors and their families from all parts of the State were on hand here today when the meeting of the Kentucky Press Association was called to order. A large number of delegates have already arrived, and each train brings in its quota of visitors. The indications are that the present session of the Association will be one of the most largely attended in the history of the organization. The program is a very interesting one.

There are a large number of excellent orators among the Kentucky editors, and they will do their part toward entertaining their fellow scribes.

Every preparation has been made at the Springs to give the visitors the best there is in stock, and if the molders of opinion in the Bluegrass State do not have a good time nobody will be blamed.

A number of the editors have brought their wives and daughters with them, and the entire meeting will be one of the most enjoyable that the association has ever held.

The thirty-sixth annual session was called to order in the hall at the Crab Orchard Springs Hotel at 9:45 this morning, by Louis W. Landrum, of Lancaster, president. After a prayer by T. D. Osborne, of Louisville, an address of welcome in behalf of the hotel management was delivered by R. W. Miller, of Richmond, and the response was made by Clarence E. Woods, of Richmond. The president's annual address was then delivered by President Landrum.

Robert Morningstar, the secretary, being absent with the records and minutes, Vernon Richardson, of Danville, was elected temporary secretary.

The subject of "The Successful Country Newspaper" was then taken up and discussed at length by J. R. Lemon, Mayfield Messenger; Jas. Allen, Cynthia Democrat; Paul Moore, Earlington Bee; Jas. Needham, Williamson Courier; Harry Sommers, Elizabethtown News; Chas. Meacham, Hopkinsville Kentuckian, and others.

Among other features of the program is a discussion of "Advertising From Three Standpoints," which will be introduced by Henry M. Caldwell, of Louisville. "Politics as a Side Line" was the subject introduced by E. Barry, Benton Democrat.

The election of officers will not take place till tomorrow or Thursday.

An interesting social program has been arranged for each afternoon during the meeting.

Cured of Bright's Disease.

Mr. Robert O. Burke, Elizira, N.Y., writes: "Before I got up on Friday night I had to get up from twelve to twenty times a night, and I was all blotted up with dropsy and my eyesight was so impaired I could hardly see across the room. I had given up hope of living, when a friend recommended Dr. E. Kidney Cure. He sent me with some remedies and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." Sold by Jno. X. Taylor.

MINING NOTES.

GIGANTIC STRIKE PLANNED.
All of the Mines in State of Pennsylvania
Will be Involved.

Pittsburg, Pa., July 23.—According to plans which are now being matured, a general strike of all the coal miners in Pennsylvania, both the anthracite and bituminous fields, will be called before the winter sets in. This action has been decided upon during the past week by officials of the United Mine Workers of America.

President Patrick Dolan of the Pittsburg district, admitted today that a great strike is being planned. A strike of this character, according to President Dolan, will bring out every union miner in the state, together with miners in other states, who may declare sympathetic strikes and will perceptibly cut off the coal supply of the operators.

The strike is really a revival of the old conflict of several years ago, when the miners were compelled by the Reading railroad to accede to the demands of the operators.

All of the Eastern railroads are erecting great bins which will be filled with coal in anticipation of the strike. While the local officials of the mine workers are loath to discuss the proposed strike, they do not hesitate to admit that they have decided to join in the fight with the anthracite miners.

Messrs. J. B. Favors and Bas Todd, of this place, were in Madisonville on business Monday.

J. P. Hornaday and Co., of Cincinnati, O., are negotiating with Cincinnati and Eastern parties with a view to establishing a large coal mine of not less than 1,000 tons daily output capacity in the Eastern Kentucky field.

J. W. Lester, of the carpenter crew, who is working at St. Charles, was off on business several days this week.

Barbourville, Ky., July 10.—The Bennett Jellico Coal Company, of Jellico, Tenn., is grading for a track to its holdings on Brush creek, on the route of the Cumberland Railroad Company's line into that field. The line of the Bennett Company will pass through the Powers farm, the former homestead of Caleb Powers. The vein of coal that the company will work is about seven feet thick.

The retail coal dealers of Kentucky and Tennessee met in Louisville last Monday and Tuesday for the purpose of forming the "Kentucky and Tennessee Retail Coal Dealers' Association," an organization having in view the betterment of retail coal business in every legitimate way. Similar organizations have been in existence in other states for several years and have proved to be helpful to the trade.

Carl Woolfolk, of the St. Bernard mechanical force, was in Madisonville Sunday visiting friends and relatives.

Frank Gough was in Madisonville Wednesday on business.

Foreman Jno. Carroll, of Victoria mines, was in the city Saturday night.

Secretary Geo. C. Atkinson returned from a trip South Tuesday night.

Mr. Rice Bowles and family returned Friday from Crofton, where they went to attend the funeral of his mother.

Mr. and Mrs. Em Goodloe attended the funeral of Mrs. DeVault at Grapevine Monday.

Justice Oliver Wendell Holmes of the supreme court, in a recent opinion on a stock rambling case, said that dealing in futures was the "self-adjustment of society to the probable."

POLITICAL POINTS.

John W. Yerkes at Home.
Lexington, July 20.—Hon. John W. Yerkes, United States Commissioner of the Internal Revenue, passed through here today for Danville, where he will spend his summer vacation with members of his family. Mr. Yerkes expects to be in Kentucky several weeks, and will be in this city much of that time conferring with the local Republican leaders regarding the political situation.

A dispatch from Paducah to the Courier-Journal says that Associate Judge Thomas C. Rucker may be the candidate for the Democratic nomination for Governor in 1907. He is now visiting the various towns and cities in the First district and his visits may lead to his announcement.

Admiral Schley's Gallantry.

Admiral Schley, in his treatment of the opposite sex, is a model of gallantry, as befits a man with such a professional record. He is simply the perfection of old fashioned politeness. On a recent evening he was sitting with his friends in a saloon near his hotel when someone called him to the telephone. He stepped up to the instrument and, after the usual hellos, tossed his cigar away, took off his hat and cried: "Oh, bow do you do, Mrs. Blank?" Then followed a crossfire of questions, good byes were exchanged and the admiral returned to the seat. His friends remarked on the circumstances attending his conversation over the wire, and Admiral Schley said he felt it incumbent upon him to take off his hat even when talking by telephone to a lady.—Cleveland Plain Dealer.

"Tom" Reed's Collar.

Among the prominent men of New England there were once, perhaps, no worse collar wearers than "Tom" Reed. One day in the summer of 1891 Reed was in Portmouth and, having to wait over for a train, he decided to make an impromptu toilet, changing his collar, etc. So he hied himself to the nearest haberdasher's and began a general survey of the collars displayed in the store.

"Waited on, sir?" queried one of the clerks.

"Not yet," responded Reed, and then added, "I would like a collar."

"What size?" piped the clerk.

"Size 20," answered Reed.

"We don't keep collars so large, but I think you may be accommodated at the store just around the corner."

Reed found the store around the corner to be a harness shop.—Boston Herald.

Favor Union Station.

Asked if the rebuilding of the station at Tenth street would mean that the Louisville & Nashville would not enter a union station, President Smith said:

"Not at all. Go ahead with the union project. The Louisville & Nashville cannot wait. But when there is a real union station on the river bank the Louisville & Nashville will be certain to use it for its passenger station.

"A union station is most desirable. St. Louis demonstrates that fact beyond dispute.

"The rebuilding of our Broadway station will not militate against a union station at all."

You are just like most other men—you pay from \$3.50 to \$5.00 for your shoes because that price ought to buy foot comfort. If you haven't been getting comfort it isn't the fault of the price—it's the shoes. Several years ago I realized that most shoes were uncomfortable because they were not made right. A GOOD NIGHT'S REST

SPEAK FOR IT!

*"Sleep for it!" she cried to docto-**rs. German Syrup, home's great trea-**cure.*

The greatest tonic on earth is a good night's rest. Restless nights and the terrible exhaustion of a hacking cough are dangerous dangers of the night. Competitive! But why not? The right way is the fewest ways. Dr. Boesche's German Syrup will insure refreshing sleep, entirely free from cough or night sweat. Your prescription for it is simple. It is made certain by taking German Syrup.

We know by the experience of over thirty-five years that the 75-cent bottle of German Syrup is a specific to relieve or cure the worst cough, colds, bronchial or lung troubles—and that, even in bad cases of consumption, one large bottle of German Syrup will do the trick. Two sizes, \$25 and \$50. All druggists.

A Remedy Worth Trying.

Robert Clark, the artist, tells this story:

One day, while out walking with a friend of his, this friend complained of a toothache, and asked Mr. Clark what he could advise him to buy, as they were in front of a drug store.

"Why," said Mr. Clark, "the last time I had a toothache I went home and my wife kissed it away for me." After a moment's pause his friend said: "Is your wife home now?"

Indigestion Cured.

There is no case of Indigestion, Dyspepsia or Stomach Troubles that will not yield to the digestive and antiseptic properties of Dr. E. W. Hall's Dyspepsia Cure. This remedy takes the scirum off the stomach by digesting what you eat and allowing it to pass. It gives a strong, agreeable and permanent relief from Indigestion and all stomach troubles, builds up the body and cures jades that do not attack at just a footold as when in a weakened condition. The constantly increasing sale of Kodol Dyspepsia Cure by physicians and housewives shows the practice of itself tells how this most wonderful modern discovery has proved to be a great blessing to the world for the alleviation of a suffering humanity. Its many cures of both children and adults grows larger day by day.

There are many ways of getting a living in New York City, but the most amazing of them all was partially unfolded in the Tomb court recently when it was alleged there was a regular established business for "losing babies" there; the head-quarters of the gang being somewhere on Mott Street. For a long time the managers of children societies have been convinced that the "losers" of babies has been conducted systematically. For many months they have found too much system in the abandonment of babies not to believe that there was a regular trade in it.

What is supposed to be the largest pair of shoes ever made in this country was turned out recently in a Nashua shoe factory. The size of these shoes may well be imagined when it is known that the weight is 18 pounds for the pair. Each shoe is 22 inches long and 7½ inches wide. In the widest place. Every detail is carefully attended to as in an ordinary first-class shoe, but because of the enormous size it required seven weeks to turn them out. They are made for a actress who lives near Atlanta.

Drank the Whole Bottle.
"Humph!" said the man of medicine to Farmer Wakefield, after he had examined his patient. "You say you haven't taken much physic in your time?"

"Not much, mister," replied the country man.

"Well, I'll give you a bottle of something that will soon put you right if you carry out instructions. Take the medicine regularly every hour."

The farmer took the large bottle of physic, placed it in his bag, and paid the bill. About four hours later he returned, looking very anxious.

"Look here, mister!" he exclaimed, "I've got my farm to look after when I get back, and if you think I've got nothing else to do but come up to this place every four hours when I want a fresh bottle you're much mistaken. So you'd better take this back and let's have a har-

Geological condition remarkably like those observed at the Kimberly mines in South Africa have recently been discovered in Kentucky. The Piedmont Plateau, at the southeastern base of the Appalachians, has already produced, in the region between Southern Virginia and Georgia, some 10 or 12 diamonds, which have varied in weight from those of two or three carats to the "Dewey" diamond, which when found weighed over 23 carats.

After taking three 100-bottle I was completely cured." Sold by Jno. X. Taylor.

Sea water as a medicinal beverage to reduce obesity is becoming a fad among many women spending the summer in resorts along the New Jersey coast. The business of supplying the water has grown into quite an enterprise by fishermen. Three or four glasses a day are said to have a beneficial effect upon the digestion as well as a tendency to purify the blood and reduce the flesh.

Docket Said He Would Not Live.

Frank G. Woodward, of St. Louis, Mo., died yesterday morning after a fortnight of failing health. After doctoring for two weeks with the best physicians in Waynesburg, and still getting worse, the doctors advised him if I had any inclination to leave the city he should attend to his business as I could not live another month as there was no cure for me. Foley's Honey Cure was recommended to him by a friend, and I immediately sent my son to the store for it and after taking three bottles of it and after eating the food he had been given to me before he became ill was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful product.

LOCOMOTIVE BLASTS

L. & N. WILL GROW CATALPA.

Company Has Planted 200,000 Trees on a Tract in Alabama.

The Louisville & Nashville Railroad Company has just completed the planting of 200,000 catalpa trees on a tract of 1,000 acres of land recently purchased near Carey, Ala., and will undertake to grow timber for cross ties.

For several years railroads have realized that the time is coming when timber fit for cross ties will be very scarce, and many companies are planting timber for this purpose.

Most of the roads have selected catalpa on account of its being a quick growth and being a long lasting timber. It is said that catalpa is one of the best timbers to last, and in many cases it has been known to endure all kinds of weather for thirty years.

Catalpa is planted in rows about four feet apart, and it is claimed that in Alabama it will make a tree large enough to make four ties every eight years, or one tie to every four feet every two years.

At any rate it is believed that 5,000 acres of catalpa will grow enough timber to supply a system like the L. & N.

In the Arkansas Valley, in Kansas, the Santa Fe and the Rock Island systems have planted thousands of acres of catalpa, and much of it is already large enough for railroad ties.

Those who have tested the growth of the timber in Southern Alabama say that it will grow faster in that state than in Kansas, and the Louisville & Nashville expects to have a splendid field of timber within eight years.

The demand for pine timber for building purposes is fast clean-

ing out all the pine that is good for ties, and railroads expect to have to use iron within another decade.

Iron ties, however, are not expected to be a great suc-

cess, for rust will eat around the joints and fastenings in a few years, allowing the rails to get loose.

The tie will then have to be taken out and a new one sup-

plied.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair, the loss of skin, as in scabies, all demand a remedy of almost super-human skill and success.

With these, and Cuticura Skin Oil, and Pills are such standards proven beyond all doubt. No statement is made regarding them that is not justified by the facts.

The power to afford immediate relief, the certainty of specific and permanent cure, the absence of any disagreeable taste have made them the standard skin cure and humor remedies of the civilized world.

The grandest testimonial that can be offered the Cuticura remedies is their world-wide sale, due to the personal recommendation of those who have used them.

From man beginning in the simplest form, against prejudice and opposition, against priests, countrymen and trade, Cuticura has remained to become the greatest creatures of their time, and, in fact, of all time, in the history of the world. The secret is to be found in another approach, in their popularity and sale. In every clique, with every people they have met with, the name Cuticura has been a household word.

The confines of the earth are the only limits to their growth. They have conquered the world.

Samuel Foreman, an electrician of Paducah, has been granted a patent on a railroad train signal, which, he claims, eliminates the probability of accidents from human hands by the automatic action of electricity attached to each engine. Foreman has been working on the signal for four years.

Two washouts nearly caused another disastrous wreck on the Louisville and Nashville railroad, near Upton, Ind., on the St. Louis division, last Friday morning. A cloudburst had washed away the earth from under the tracks a few minutes before the arrival of passenger train No. 53.

The train was plowing through a foot of water, when the tracks gave away and sunk the engine in a mire and it was with some difficulty that the train was gotten out.

A flagman who was put out to warn approaching trains discovered a large pit caused by the washout in time to prevent the southbound train from going into it.

J. I. Martin, a Henderson division engineer, was instantly killed at Crofton last Thursday night by the Chicago and New Orleans Limited No. 93. After reaching Crofton Martin had thrown the side track switch for the purpose of his train taking the siding so No. 93 could pass, and sat down the end of a cross tie to wait until the fast train came in sight. He fell asleep and was struck and his body hurled fifty feet. Martin left here with Conductor Marvin Padgett as head brakeman on first section of 97 and it is said that he fell asleep at New En-

pire about half an hour before the fatal accident happened, but one of the train crew awoke him just in time to save him from being killed by a passing train. Martin was 25 years old and unmarried. His home was at Nashville, Tenn., to which place his remains were shipped Friday and interred there on the following day.

Conductor Pete Herb, who was off duty several days last week on account of illness, has resumed work again.

Conductor Jno. Longstaff and Brakeman W. L. Kline, of Guthrie, were in the city Sunday visiting friends and relatives.

Conductor Arch Longstaff has been transferred to one of the work trains on the south end and will move his family to Cedar Hill, Tenn., where he will reside on this run.

Conductor Leahy is on trains 51 and 52 during the absence of Conductor Corbett, who is off on account of the death of his mother.

Conductor Willie Boyd is on Mr. Leahy's run for the present.

Conductor Boyd is all smiles. It is a girl and she weighed eight pounds. Mother and baby both getting along nicely.

Brakeman Pittman, who has been working at Bakers Hill for the past two months, was here Tuesday visiting friends.

Conductor Arct Longstaff, of Cedar Hill, Tenn., spent Tuesday with his family in this city.

Chief of Detectives Jesse T. Peck, of Evansville, Ind., has received information from Henderson, Ky., that Fred Gobin, a railroad conductor, is missing from his home in that city, and his relatives fear foul play. Gobin is thirty-four years old and told some of his friends that he was going to Evansville.

GRAND LEADER.

Around the Farm

Beautify Your Farms.

It pays to take care of your farm and beautify it in every way possible, hence to beautify and build up the soil of the lands of Pendleton County should be the slogan of our farmers. It is a noticeable fact, made more patent by every recent land sale in this country, that those farms which have been kept up to a high standard have a greater value at an increased price than their value a few years ago, while deteriorating lands have depreciated in value.

Plant Potato and other advantageous crops and improve your land. Our neighbor, the Bracken County Review very correctly says:

What a wonderful difference a little bit of labor will make in the appearance of a farm. A few days flailing up washes, sowing grass seed, setting out fence posts and hollows, adding to the appearance of a farm, and pay better returns than anything a man can do. Then he will be the proudest man of his home, his wife will run across. His land becomes more valuable not only in his estimation, but in the estimation of home seekers, and if it is for sale there is no trouble to find a buyer.

This same question applies to the roads alone or through your farms, for there isn't anything that gives a section of country away as much as a road through the side of the road; and it is the dirtiest kind of farmer that himself as well as his country, to keep his road clean and inviting.

Don't you think you are working for the country when doing this kind of work, for you are not. The pleasure and credit you and your family derive from it more than pays you, besides enhancing the value of your property. White-wash and paint are other requisites, and consist largely in beautifying and improving property, and can be added at a very little expense."
